Re: RW Road Milling & Paving Status

On March 2, work continued on our planned Road Maintenance project.

Friday, March 2 Status: Paving is Complete

- ~Completed paving on WBE
- ~Completed Paving at incoming side of Old Tampa Entrance
- ~Completed paving of three large repairs on WBW (north and south)
- ~Started clean-up of sand on previously paved streets
- ~Some Paving equipment was removed from property

Garbage collection could not reach all areas of WBE and WBW and will be collected on Tuesday March 6.

Saturday March 3 Saturday, What to expect

- ~Plan to complete Clean-up of sand on property on all paved streets.

Please note that Contractors daily status memo will be provided sometime over the weekend.

Thank you very much for your patience. We understand that such a large maintenance project in the community is disruptive, and we truly appreciate the understanding and patience exhibited by the great majority of you. Enjoy your new roads.

Future Projects:

- Repairs on several small Aaeas on LCR and WBW (April 2018)
- Protective Coating of all RW Streets (Spring 2019)
- Phase II paving of remaining roads (Spring 2023)
