Re: Recording of HOA Meetings

At the May 15, 2018 HOA Board Meeting, the RWHOA Board of Directors adopted a set of Rules for Recording HOA Meetings. These established Rules clearly acknowledge the rights of any property owner to record any HOA meetings as stated by the Florida Statutes. They are intended to ensure that the recordings are done in a quiet, orderly fashion and that the resulting recordings are not published on social media. Additionally, the rules ensure that all meeting attendees are aware that their remarks are being recorded.

The HOA Board took this action after multiple complaints from attendees at the Annual Meeting on April 17, 2018. The complaints were that some residents had recorded the Annual meeting and that the attendees had not been informed that they were being recorded.

These Rules have been reviewed by the HOA Lawyer and will go into effect on June 1, 2018. These Rules are posted on the [www.rwhoa.org](http://www.rwhoa.org) website and at Argus website for our community.
