Re: Truck Amendment Voting Results

Last night, August 6th, we counted the ballots on the proposal for an amendment change related to Truck Parking.

The amendment required a 2/3 affirmative vote to make the change. The required number of Yes votes needed to pass the amendment was 594. The change to the amendment failed.

The total number of ballots cast was 437 out of 890 homes.

The Yes votes numbered 280.

The No votes numbered 157.

Thank you to everyone who cast a vote. We received quite a few ballots from out of state. I am glad to see so many take the voting seriously, as it should be.

Enjoy Livin'
