Re: HOA FIOS Survey

Our FIOS committee has been digging into the specifics of our Frontier bulk communications contract in preparation for the end of the contract that comes in 2020. They need a few details from you to make their recommendations. They want to know what services you use on Frontier or if you use a different carrier. This will help them in determining if we want to proceed with another bulk contract or to encourage residents to reach out on their own.

Please click the link below to start the FIOS survey. The survey should take you less than 2 minutes to complete. Please complete ONE survey per household.
