Re: Speed Hump Installed on WBW

Today, the HOA installed its first Speed Hump near 3306 Wilderness Blvd. West. This is the next step in our effort to improve the safety of our community by calming speeding on our roadways. Please observe the Speed Hump and travel over it at no more than 10 mph. The HOA will monitor feedback from residents on Wilderness Blvd. West to determine the schedule and location for the installation of additional Speed Humps, as necessary. We expect signs for this Speed Hump to be installed next week.

Please do not travel faster than the posted speed limit and observe all Stop signs.

Sincerely,
Your RW HOA Board
