Re: Sign Vandalism

Last night some residents stole our election reminder sign at the Old Tampa gate, defaced it and then returned it after they changed it to some rather vulgar language. Many of you may have seen the post on Nextdoor with pictures of the defaced signs which have since been taken down.

When our guards spotted the sign, quite late last night, they immediately moved it inside and let us know about the issue. After reviewing the camera footage we got clear shots of the residents, the vehicle and a clear shot of the plate number along with the date and time stamps of the situation. That information was turned over to the Sheriff's office. The license plate number was run and we got the resident information quite easily.

I received a call back from the residents and we are dealing with the situation appropriately.
