Re: COVID-19 Complaint

The HOA Board has received a notice from Manatee County Code Enforcement of a complaint from a River Wilderness resident. The resident states that people are driving on the streets of the neighborhood in their golf carts, coughing and sneezing and not following safe distancing or good manners.

The Board reminds residents that COVID-19 is a serious matter and asks that you continue practicing safe social distancing and the orders of the governor until this virus problem abates.

Thank you for your cooperation.

The HOA Board
