Re: Anonymous Letter of 09/23/2021

Last week River Wilderness residents received yet another anonymous letter which fraudulently used the return address of our neighborhood Community Center. The author of these letters has no official standing to represent our HOA or our community. The author is knowingly spreading misinformation with this vindictive behavior.

In addition to misreporting the HOA Board meeting, this letter has maliciously defamed four of our residents and neighbors. (We will not repeat the false accusations.)

While hiding behind the cloak of anonymity, the author of these "anonymous" letters continues his attempts at sowing division within the River Wilderness Community. The twisted allegations and disparaging claims in these letters are inappropriate and provide no positive contribution to our community.

We urge you to take the "high road" and ignore these anonymous letters. Please do not give credence to words that the anonymous author himself will not own.

The RW HOA Board
