Re: Road Closures in the Islands

Dear River Wilderness Property Owners,

We have been advised by the Developer that beginning May 2nd, a portion of Rio Vista Terrace and Harbourside Lane will be closed to traffic for street repairs. Along with a portion of Rio Vista Terrace, the bridge leading to and from Rio Vista and Harbourside will be closed. There are no homes existing or being constructed around the area of the closure, however access to certain lots may be affected.

Although the repairs will only require a portion of Rio Vista Terrace and the bridge to be closed, once the repair work is completed, "all" streets in Rio Vista will be re-sanded. The re-sanding process will require minimal street closures while re-sanding in an area is being done. You may drive on any newly sanded surface area and be advised that the sand may remain on the streets for an extended time.

All work on the streets should be completed on or before May 27th.

The RW HOA Board
