Re: Roadway Analysis and Recommendations

Dear Residents,

Enclosed you will find a link to the important Roadway Analysis and Recommendations Report detailing the important work that has been performed this past year for the RW Roads.

[Roadway Analysis and Recommendations](#)

Please note, this information has been presented in past monthly Board Meetings, however for those that have been unable to attend our meetings, we wanted to provide you an opportunity to review this information. The main focus of our November meeting will be on the 2024 budget so we will be unable to field questions in detail specifically on the information in this linked document.

We will be sharing the proposed plan for addressing our current road conditions, but we believe this will make our meeting more time efficient if all enter the meeting with an understanding of the analysis performed up to this point, and the condition of the roads in RW.

Remember, we have rescheduled the Board Meeting to 7 pm at the Club in River Wilderness to facilitate attendance. We look forward to seeing you there.

Regards,

The River Wilderness of Bradenton Foundation, Inc.
