RE: RW Roadwork - County Inspection by Code Enforcement

Dear Residents,

The Board received a call from Code Enforcement yesterday, stating a resident contacted the County Commissioner with concerns regarding the road work being conducted in the community. We reviewed the protocols and were initially cleared; however, the Commissioner then requested an in-person inspection for verification.

The RW Community will be relieved to know that after the roads and protocols were inspected and reviewed, the Roads project was fully approved of by the County Code Enforcement.

While we never want to discourage a resident from reporting what they believe to be a dangerous issue, we would also like to remind the residents that the work on our roads is being performed by well-respected companies that perform this type of work in communities throughout the state and are used to providing this work in a manner that is consistent with state guidelines.

The River Wilderness Foundation of Bradenton, Inc.
