Re: Hammocks "critters"

Dear Resident:

Homeowners are putting out their Tuesday/Friday garbage in plastic bags. This has started to attract undesirable "critters" to our community. We have had an increase of vultures, raccoons and opossums on the streets searching for food in the garbage bags.

Keeping garbage in proper cans is a deterrent.

Reminder that all garbage cans "shall be put out to the end of the yard or to the curb no earlier than sundown the night prior to the County's scheduled pick up times".

Thank you for your cooperation in the prevention of a potential issue.

June Seaton, President  
Hammocks HOA
