Re: Mandated Water Shortage Restrictions

Due to the Manatee County watering restrictions effective [June 5, 2017 through August 1, 2017](#) all Hammocks irrigation clocks should be reset.

Brightview will be resetting the irrigation timers the week of [May 30th](#) to the specific day and time for your property address.

If your irrigation clock is not accessible to the Brightview workers, you are responsible for the adjustments. If you are not in your Florida residence at this time, you must make arrangements to hire someone or to have a friend/neighbor reset the timers for you. **Per Manatee County, violations of this directive carry fines up to \$10,000.**

Thank you for your cooperation.

Hammocks BOD
June Seaton, President
