Re: Hammocks Hurricane Cleanup

Dear residents,

I am grateful River Wilderness has come through Hurricane Irma as well as we have. We are blessed. Now we start the process of cleanup.

I have been in contact with BrightView, our landscape maintenance company, and they are in the community today to pick up greens that has been placed in a pile out on the curb. They will not be raking or cleaning anyone's yard. This is your responsibility.

Other communities did not fare as well as the Hammocks. Safety takes a priority. Therefore, they will be addressing some communities before they can get to us. However, as I contacted BrightView immediately regarding trees down and debris in the common areas, they will have the Hammocks at the top of their list for any cutting and hauling away in the commons.

If you have trees in your own yard that have an issue you may contact your own private contractor, or if you wish, contact Bob Seaton, Grounds Chairman, at [776-8551](tel:776-8551) or rseaton1@tampabay.rr.com He can then make arrangements to have BrightView do the cleanup in your yard at your expense.

Any questions, please call Bob or me at [776-8551](tel:776-8551). Thank you for your patience with the cleanup. It will get done.

June Seaton, President
Hammocks HOA
